TESTIMONIAL

TO WHOM IT MAY CONCERN

I am pleased to recommend Reface.

The advent of the DVD format has meant that now our livelihoods depend on a product that is really too fragile for hire to the public. Damage is inevitable. It is a real worry for our business.

The emergence of Reface has given us a way to minimize the financial cost of this damage. Prior to using Reface we had to replace damaged DVD's at full price, now we can arrange for repair at a fraction of the cost.

The quality of the procedure is sound. We have confidence in the repairs.

Mark and Warren from Reface have devised a send-return system through the post which is fast and convenient.

We have been delighted. I recommend Reface with the greatest confidence.

Yours sincerely,

Philip King
Manager
