The VMI 3500. Changing the world of disc repair... **30 seconds at a time.**

Rapid. Reliable. **REVOLUTIONARY.**

The VenMill VMI 3500 employs the latest disc repair technology to rapidly repair all optical disc media.

Simply insert a disc into the loading tray and press a button. **It is that easy!** The revolutionary repair process leaves discs dry, allowing them to be returned to the shelf immediately!

With the VMI 3500 disc repair and maintenance can be completed in 30 seconds!

VenMill Industries' patent OptoClear process allows a disc to be rapidly repaired an infinite number of times. What's more, there are no messy liquids, polishes or sandpaper pads that require numerous applications or replacement. The VMI 3500 is capable of repairing over 2,500 discs before requiring a change of consumables!

The VMI 3500, unlike sanding machines, takes a non-aggressive approach to repair, with better, faster results. The unique appearance and silent operation allows the unit to be conveniently placed on the countertop.

With the VenMill unit disc repair and maintenance can be easily performed in any store, by any employee.

VenMill Industries' OptoClear process has revolutionised the approach to disc repair, saving rental stores time & money. This unique repair unit removes the headaches of disc repair and allows store owners to return their focus to running their businesses whilst providing the opportunity to generate new income from the repair of customers discs, sale of previously viewed titles and trade-in of DVDs, CDs and Game Discs. The OptoClear process safely repairs all digital disc media including XBOX and 3 inch discs.

The VMI 3500 comes loaded with consumables capable of repairing 2,500 discs, 1 VMI Cleaner Disc, and a 3 inch adapter.

With a 30 day money back guarantee, 12 month extendable warranty and comprehensive customer support, the VMI 3500 is the smart choice for all size businesses.
