Mr. Mark White  
Reface Industries

Dear Mark

Since the introduction of DVD's our industry has been searching for a satisfactory way to maintain our library. The VMI Reface 4500 machine, has solved the problem...

It is efficient and effective, it is quiet and importantly shows the consumer we care about the quality of our product. They even let me use it, that's how ezy it is.

Regards

Julie A J Irwin
